# POLITICS IS FOR POWER

**How to Move Beyond  
Political Hobbyism, Take Action,  
and Make Real Change**

Eitan Hersh

The Congress and BJP candidates from the Rehli assembly seat in Madhya Pradesh's Sagar district on Sunday accused each other of plotting to kill one another. The rival nominees targeted each other after the supporters of the Congress candidate, Jyoti Patel, allegedly had a tiff with some locals at Gunjora trisection on Saturday. A few vehicles of Patel were then damaged, she claimed. A purported video of the incident surfaced on social media showing some people, including women, breaking window panes of some vehicles.

After the incident, Patel said BJP candidate from Rehli, Gopal Bhargava, an eight-time MLA from this seat, was behind the attack on her vehicles and it was an attempt to kill her. On the other hand, Bhargava claimed that the police found arms and ammunition in Patel's vehicles and they had been brought to take his life. Bhargava said Patel's allegations against him reflect her frustration, claiming that she would lose her deposit in the election. Additional Superintendent of Police (ASP) Lokesh Kumar said Patel has submitted an application levelling allegations against Bhargava.

In a speech on India's independence day in August 2023, his tenth as prime minister, Narendra Modi declared the country to be at a turning point. A new world order, he told the crowds, was emerging in the wake of the covid-19 pandemic. India was poised to shape this new order, thanks to its "trinity" of demography, democracy and diversity. "The world can see a spark for itself in this beam of light that is emanating from India," he said.

Neuroscientists at the Faculty of Medicine and Surgery of the Catholic University, Rome, and the Fondazione Policlinico Universitario Agostino Gemelli IRCCS have genetically modified a molecule, the protein LIMK1, which is normally active in the brain, with a key role in memory.

The research, supported by the Italian Ministry of Education, University and Research, the American Alzheimer's Association Foundation, and the Italian Ministry of Health, has great potential applications, by improving our understanding of memory function and facilitating the identification of innovative solutions for neuropsychiatric diseases like dementia.

A new study reveals that humanity is at risk of falling into 14 evolutionary dead ends, termed “evolutionary traps,” ranging from climate change to artificial intelligence. The research, focusing on the Anthropocene era, highlights the need for global cooperation and active societal transformation to avoid these traps.

Indias dreams of winning a third World Cup title lay in tatters after an inexplicable meltdown saw them crash to a six-wicket defeat against an indefatigable Australia here on Sunday, plunging the cricket-obsessed country into deep mourning. Australia thus won a record-extending sixth World Cup title, stretching their dominance in the tournament that started way back in 1975. Put in to bat, India ended up with a below-par 240 despite contributions from Rohit Sharma (47 off 31 balls), Virat Kohli (54 off 63) and K L Rahul (66 off 107).

Australias brilliant bowling and fielding also went a long way in their emphatic win. The dew in the evening also made batting easier on a slow and dry surface. India, who were the only unbeaten side going into the final after 10 wins on the trot, fell flat in the final hurdle. Their last world title came way back in 2011 and their last ICC trophy was the Champions Trophy triumph in 2013. Indias defeats in the ICC events over the past decade include the loss in 2014 World T20 final, 2016 World T20 semifinal, 2017 Champions Trophy final, 2019 ODI World Cup semifinal, 2022 T20 World Cup semifinal and back-to-back runners-up finish in the 2021 and 2023 World Test Championship cycle. Brief scores: India: 240 all out in 50 overs (KL Rahul 66, Virat Kohli 54; Mitchell Starc 3/55). Australia 241/4 in 43 overs (Travis Head 137, Marnus Labuschagne 58 not out; Jasprit Bumrah 2/43).

Sadio Mane celebrated his 100th Senegal appearance by scoring twice in a 4-0 World Cup qualifying victory over South Sudan in an empty stadium near Dakar on Saturday. The Saudi Arabia-based forward, who has been voted African Footballer of the Year twice, also created a goal in the Group B first round match before being substituted. Success took reigning African champions Senegal to the top of the group, ahead of the Democratic Republic of Congo on goal difference, as they seek a third straight World Cup appearance in 2026. The only disappointment for Mane and his teammates was that the match had to be staged behind closed doors after crowd trouble in a game against Egypt last year.

FOURTH EDITION

SVANidhi Se Samriddhi is an additional component of the PMSVANidhi scheme to facilitate access to eight Central government schemes to eligible PM SVANidhi beneficiaries and their family members for their holistic development and socio-economic upliftment.

Union Finance and Corporate Affairs Minister Nirmala Sitharaman on Sunday said women entrepreneurs are accorded first priority under the Centres flagship Pradhan Mantri Mudra Yojana scheme which offers financial assistance to beneficiaries. Distributing sanction letters to beneficiaries under the PM SVANidhi Se Samriddhi programme which offers loans to street vendors, here, she said officials of the municipalities should identify the uncovered street vendors and help them avail benefits of this scheme

India has crossed the USD 4 trillion mark in its GDP, according to a viral social media post by billionaire Gautam Adani, two Union Ministers, and Maharashtra Deputy Chief Minister Devendra Fadnavis. The finance ministry and the National Statistical Office did not immediately comment on the post, but high-placed sources said the viral news was incorrect and India was still shy of the landmark.
